

4299 - Premium TPP tape with a residue free natural rubber adhesive 4299 is a premium TPP tape, produced with a unique combination of our highest tensile strength TPP backing, and a highly cross-linked stain-resistant adhesive system.

The adhesive has high tack, high adhesion and excellent chemical resistance. The clean removal adhesive ensures a reduction in clean up costs compared with other adhesive systems that leave residue and filament tapes that almost always leave filaments behind after removal. The durable backing has excellent impact and abrasion resistance.

Available in yellow.

- ☐ **Thickness-mils** - 5.8
- ☐ **Adhesion-oz/in** - 61
- ☐ **Tensile-lbs/in** - 200
- ☐ **Elongation %** - 35%

#### Applications:

- Holding loose parts of appliances and other parts in place during transport and storage
- Bundling, holding, and reinforcing applications requiring the highest tensile strength and residue free removal
- Heavy duty surface protection requiring high impact and abrasion resistance
