

NOPI 4090 - General strength TPP film in combination with a synthetic rubber adhesive system. NOPI 4090 is a general strength TPP tape, in combination with a synthetic rubber adhesive system. NOPI 4090 is an economic alternative to filament tape, ideal for palletizing and non-critical bundling applications.

The synthetic rubber adhesive adheres very well to all corrugated grades. The TPP backing has excellent elongation allowing the tape to conform well around pallet loads, ensuring the stability of your pallets.

- **Thickness-mils** - 2.7
- **Adhesion-oz/in** - 47
- **Tensile-lbs/in** - 95
- **Elongation %** - 35%

4090 is available in black and white.

Applications include:

- Securing pallets during interplant transfers
- Light-duty bundling applications where adhesive residue is not a concern
