

Sekuworks “ready to deploy” Hologram Authentication label + QR code* combines state-of-the-art security technologies with verification.

The off the shelf label provides robust authentication while the QR code, linked to a web based system, provides unit level verification.

Protect and track individual products, parts and assets or use at the carton or pallet level to combat counterfeiting and diversion/gray market issues.

Contact Sekuworks or an authorized distributor for program details and additional QR tracking options.

No setup or maintenance fees for basic authentication and verification.

* Refer to the “Sekuworks QR Specification Sheet” for additional information.

Security Features and Specifications

Authentication

Size0.75” x 1.5”
Print.....High Resolution Flexographic
4 Color - Micro text, Fine Line
Security Layers.....High Security Hologram
Laser Read Up-shifting Ink
(Laser Pens purchased separately)

Tracking

Information Content.....QR Bar Code + Human
Readable Number
Direct website connectivity
Linking to Code Validation
